GLASS BREAKAGE SENSOR

Designed to integrate seamlessly with your existing factory security/keyless entry system, the glass breakage sensor (GBS) uses a highly sensitive microphone to detect the specific frequencies of glass being struck or broken. If the GBS detects glass breakage, it immediately activates the vehicle security system, sounding the alarm and disabling the starter. The GBS is capable of ignoring noises other than those associated with glass, ensuring you're not inconvenienced by "false alarms." Features one-touch arming/disarming.

REMOTE ENGINE STARTER

Enjoy the luxury of having your vehicle ready and waiting with a comfortable interior temperature on cold winter mornings or hot summer afternoons, courtesy of the VIP Remote Engine Starter. This clever accessory allows you to start the engine—and to activate the air conditioner, heater, defroster and defogger functions—before entering your vehicle. It's fully integrated into your factory security/keyless entry system, so there's no need for an additional remote.

PAINT PROTECTION FILM

Help protect your Avalon's factory paint from sand, stones, insects and other road debris that can chip and scratch the finish with paint protection film. Constructed from durable, colorless urethane and nearly invisible, it can be applied to the frontal impact areas of the vehicle including the hood and fenders, helping maintain a like-new appearance.

WHEEL LOCKS

Constructed of forged, thoroughly hardened and tempered steel for structural integrity, with triple-nickel or zinc plating, these wheel locks provide inexpensive, dependable protection against wheel and tire theft. All wheel locks are precision weight-balanced to the stock lug nut weight, eliminating the need for rebalancing after installation.

This soft-sided, black PVC zipper case is designed to mount inside the cabin or cargo area, ensuring practical first aid supplies are always close at hand. Contents include tweezers/magnifier, insect sting pads, towelettes, adhesive bandages, butterfly strips, sterile gauze, stretch bandage with metal clips, muslin sling, adhesive tape, scissors and an emergency blanket.

Providing engine protection and potentially increasing engine output, the TRD high-performance air filter features a unique, oiled four-ply cotton gauze design that maximizes the filter's media area for superb filtration and enhanced airflow. A rugged polyurethane body holds the filter element, which is enclosed in durable epoxy coated mesh and an elastomeric seal for a precision, leak-free fit. TRD OIL FILTER

Spoil your Avalon with state-of-the-art engine protection, courtesy of the TRD high-performance oil filter. TRD oil filters use a 100-percent synthetic fiber filtration medium to provide the highest possible dirt removal efficiency, along with the lowest possible flow restriction.

TRD RADIATOR CAP

Upgrading to a TRD high-pressure radiator cap can help your vehicle perform better under pressure.
